

D3O® LP1

D3O uses patented, patent-pending and proprietary technologies to make rate-sensitive, soft, flexible materials with high shock absorbing properties.

The D3O® LP1 is the most advanced breathable limb protector range engineered by the experts in impact protection at D3O.

Utilising a new tri-ventilation technology, the D3O® LP1 delivers a 45% improvement in breathability while maintaining superior high-performance, soft and flexible D3O® impact protection properties.

High levels of humidity are strongly linked to rider discomfort. The enhanced ventilation featured in the D3O® LP1 increases air passage and moisture flow from the body through the pad to maximise comfort in warm conditions, without sacrificing performance.

PRODUCT FEATURES

- Tri-ventilation for superior breathability
- CE certified to EN 1621-1:2012, Level 1, including optional cold and hot conditions
- Type A coverage
- Manufactured in a highly durable material
- Temperature stable
